

Polycom SoundStation Internal Keyboard Replacement

Follow this guide to replace the internal keyboard for your SoundStation.

Written By: Cali Nowak Credit

INTRODUCTION

Being able to remove the keyboard will allow you to replace it or clean up the connections if the keyboard is not working properly.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Back Housing

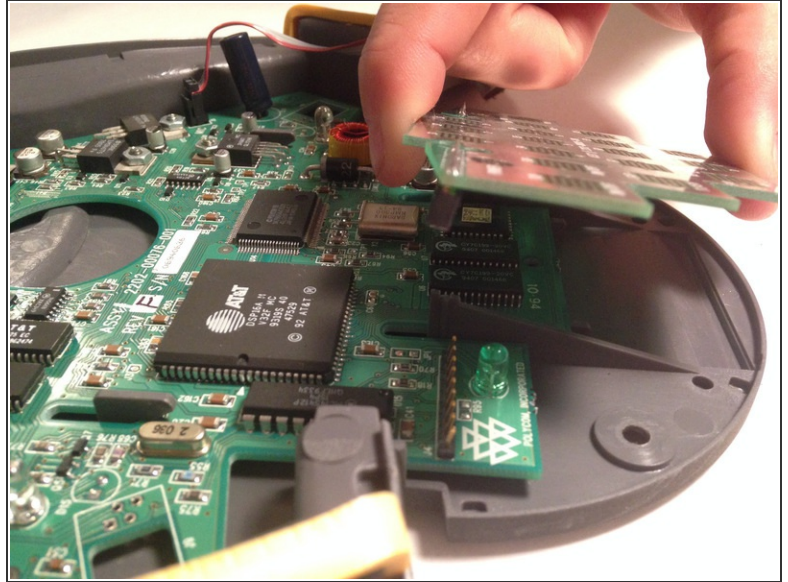

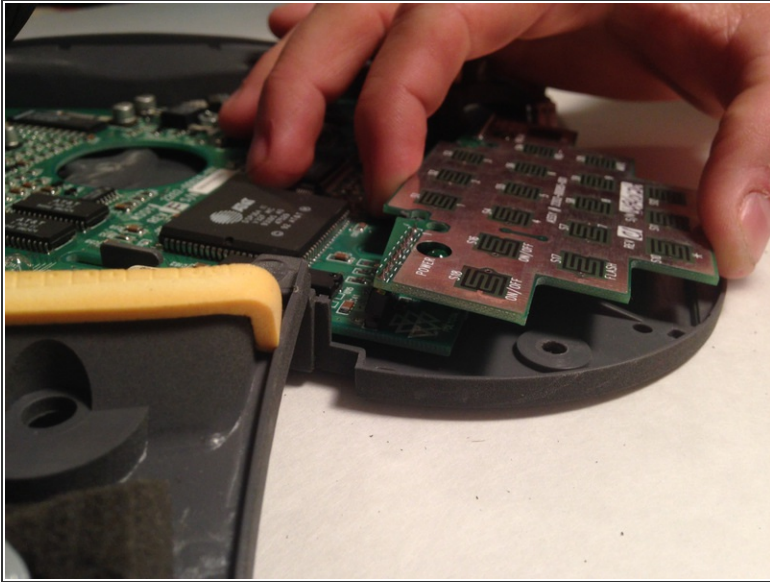

- Flip the device over. Using a Phillips #00 screwdriver, remove the black 10mm screw on each three legs of the phone.
- Using a Phillips #00 screwdriver, remove the two silver 7mm screws as pictured.

Step 2

- Gently lift and separate the back housing from the rest of the device. Now you've got the back housing off!

Step 3 — Internal Keyboard

- Gently lift the internal keyboard off of the motherboard.

To reassemble your device, follow these instructions in reverse order.
